His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

#### SPEECH FROM THE THRONE

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is with pleasure that I welcome you to this Third Session of the Thirteenth Legislature of the Province of Alberta.

During the past year a further deterioration of international relationship has occasioned grave concern. We earnestly pray that the year ahead will witness an easing of world tensions, a strengthening of the ties of our Commonwealth and the establishment of full co-operation and mutual respect among all freedom-loving nations.

Within our own province during this session, my Government will present for your consideration a comprehensive program designed to ensure continued economic development and social progress in the best interests of all our people.

As a measure of practical assistance to Agriculture, you will be asked to appropriate further sums for the continued development of irrigation in southern Alberta in accordance with my Government's agreement with the Government of Canada. Further extensions are proposed to existing departmental services, including those related to farm management and the control of livestock diseases. A new service, known as the Random Sample Test Program, will be inaugurated to assist in the selection of improved strains of poultry.

Legislation will be introduced to establish a Farm Credit Union program under which capital loans will be made available to young farmers for the purchase of agricultural lands.

Funds will be requested to enable the Land and Forest Conservation Committee to proceed with projects for the rehabilitation of lands based on surveys conducted during the past year.

Changing agricultural conditions have necessitated alterations in the procedures required in the establishment of homesteads and to this end amendments to The Public Lands Act will be introduced for your consideration.

To assist in the continued improvement of rural facilities, further funds will be requested for rural electrification through The Rural Electrification Revolving Fund Act and for a new revolving fund to provide loans to rural Mutual Telephone Companies.

The past year has witnessed the continued orderly development of the oil and gas resources of the province, including projects designed to facilitate marketing, both domestic and export, of the province's huge reserves of natural gas. You will be asked to approve a new Oil and Gas Resources Conservation Act designed to bring up-to-date the statutory provisions governing oil and gas development.

As a practical measure in the preservation of our forest resources, an expanded program of forest protection and fire suppression will be submitted for your approval.

In the field of Education, my Government proposes to establish a competent body to conduct a comprehensive survey of the various phases of the elementary and secondary school system of the province with particular attention to programs of study and pupil achievement. A study also will be made to determine the feasibility of introducing a uniform scale of salaries for all teachers employed by school districts, divisions and counties. To augment the number of teachers qualified to offer instruction at the high school level, the program of teacher training bursaries will be extended and you will be asked to approve increased appropriations for this purpose.

Measures designed to extend the operation of the school textbook rental plan will be submitted for your approval together with amendments to The School Act and The School Buildings Assistance Act.

You will be asked to approve important additions to my Government's comprehensive Public Health program, including regulations to control the hazards of radiation and also for the control of air pollution.

Legislation will be introduced to provide a further expansion of the province's hospitalization program and to co-ordinate provincial services with the proposed federal hospitalization plan. A project will be instituted for the treatment of emotionally disturbed children and provision will be made to continue the poliomyelitis vaccine program with the objective of having this protection made available to all those under twenty-one years of age by the spring of 1958.

My Government proposes to construct and equip a new cancer clinic in Calgary and to provide an addition to the provincial laboratory at the University of Alberta for the purpose of virus research work.

You also will be asked to make provision for a second school for the training of nursing aides.

In the field of Public Welfare you will be asked to amend The Mothers' Allowance Act and extend its benefits to mothers whose husbands are patients in tuberculosis sanatoria or who have been voluntarily admitted to a mental hospital.

An extensive program of highway and bridge construction is proposed for the ensuing year and you will be asked to approve large appropriations for this purpose. A new appropriation will be requested to initiate a program for the provisions of public camp sites adjacent to main highways.

The tourist industry, which has reflected substantial growth during the past year, will be further encouraged by an active promotional program employing the most effective means to publicize Alberta's many tourist attractions.

The growth of population and high level of business activity imposes heavy demands on the Department of Telephones for expanded communication services which can only be met by a major construction program during the coming fiscal year. You will be asked to authorize the expenditures necessary for this purpose.

Rapid economic development throughout the Province has made necessary a continuous program of construction of new public buildings for which you will be asked to approve substantial appropriations.

During the past year, comprehensive studies in the field of provincial-municipal relations have been carried on by representatives of municipal councils and my Government. These discussions will be continued throughout the ensuing year with a view to arriving at the best possible division of responsibilities between the two levels of government combined with a just and equitable allocation of aggregate public revenues in a manner that will ensure to each level of government maximum independence in discharging the responsibilities it has assumed. In keeping with this objective, a number of amendments will be introduced during the present session designed to eliminate many of the present restrictions requiring municipal officials to obtain ministerial approval before taking action on matters which properly come within local jurisdiction. The need of greater equalization of assessments has become obvious and to this end legislation will be introduced extending the services of the Assessment Branch of the Department of Municipal Affairs to rural areas on the same basis as they now are provided to towns and villages.

My Government believes it is of the utmost importance in the reorganization of provincial-municipal responsibilities and the allocation of revenues accruing from the development of natural resources that all practical steps be taken to improve the financial position of the individual citizen and thus lessen his dependence on the state for social and economic security.

A full report will be given to the Legislature on the progress to date of discussions relating to metropolitan development and

legislation will be introduced to constitute a regulatory body to supervise the orderly expansion and development of metropolitan areas.

It is proposed to eliminate certain categories of taxes being paid under The Amusements Act.

The Government of Canada proposes to vacate the field of taxation on insurance premiums which was rented to the federal government by the province under the Tax Rental Agreements of the past fourteen years. All other provinces have indicated their intention to re-enter this field and as the operation of most insurance companies is on a national basis, my Government considers that similar action should be taken in this province and appropriate legislation to this end will be introduced for your consideration. .

A new Tax Rental Agreement is being negotiated with the Government of Canada to replace the existing agreement which expires on March 31st of this year.

Amendments to The Alberta Insurance Act will be introduced dealing principally with uniformity of control over contracts of fire insurance and of accident and sickness insurance. This legislation will be in line with that now being enacted in other provinces and will provide for a modernization and simplification of contracts forms.

The Alberta Municipal Finance Corporation, established under legislation passed by this Assembly last year, has been constituted and will commence operations during the ensuing fiscal year.

It is proposed to amend The Land Titles Act to permit claims for damages against the Assurance Fund under a new formula in cases where mineral rights have been lost through errors or omissions in the Land Titles register.

A revision and consolidation of The Alberta Labour Act will be submitted for your approval including an amendment to provide equal pay for equal work.

The printing of the Revised Statutes will be completed during the ensuing year and will be proclaimed in force under the provisions of The Revised Statutes 1955 Act.

In keeping with the requirements of the new Election Act passed at the last session of this Legislature, amendments to The Legislative Assembly Act will be submitted for your consideration, providing for changes in the representation in the Legislature of the cities of Calgary and Edmonton.

Having regard to present trends in economic development, my Government plans to establish a Northern Development Commission to make a complete and thorough study of conditions and particular requirements of the northern areas of the province in relation to present and potential development.

The special committee appointed at the last session to recommend amendments to The Liquor Control Act will submit its report and recommendations during the present session.

The Public Accounts for the last fiscal year together with the Estimates for the ensuing year will be presented for your most careful consideration.

I leave you now to the business of this session in confidence that you will discharge your duties and responsibilities in the best interests of all our people. I pray that Divine Providence will guide and bless your deliberations.

The motion was therefor declared lost.

The Order of the Day being read for the continued Debate on the following motion:

Moved by Dr. Ross, seconded by Mr. Hillman.

Whereas the Province of Alberta, during the 1953 Session of this Legislature, enacted legislation providing pensions for disabled persons who are residents of the Province; and

Whereas, on 26th June, 1954, the Parliament of Canada passed an Act entitled the Disabled Persons Act that provided for the payment of allowances to residents of Canada who were totally and permanently disabled; and

Whereas the definition of totally and permanently disabled persons is provided by regulations. It is the opinion of this assembly that the definition of "totally and permanently" disabled persons is far too rigid to permit of the granting of an allowance to many needy persons whom this statute is undoubtedly intended to assist;

Therefore be it resolved that this Assembly petition the Government of Canada to take such action as may be necessary to make the Disabled Persons Act (Canada) apply to all persons who are disabled, to the extent that they are unable to undertake remunerative employment, and

Be it further resolved that the maximum allowable income for the purpose of the Disabled Persons Act be increased to those approved by the Blind Persons Act, the recipients of which are in a somewhat similar category, so that the disabled may be encouraged to take advantage of the rehabilitation program for disabled persons, that is now in effect.

To which the following amendment has been proposed:

Moved by Mr. MacDonald, seconded by Mr. Josvanger:

That all words after the word "that" in the first line of the Resolution be struck out and the following words substituted therefor:

"the Government of this Province be requested to give consideration to the payment of supplementary allowances to persons entitled to disabled pensions from the Province of Alberta and further that an economic study be made to ascertain whether the impact of taxation required to increase the benefits which the Government of this Province considers it advisable to pay to disabled persons will be greater on the Province if such benefits are paid by the Province alone or if such benefits are given on a Canada wide basis and paid through federal taxation."

*(Sessional Paper No. 80)*

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Dushenski, seconded by Mr. Ruzycki:

Whereas many of the recipients of old age security and old age assistance are forced to pay a disproportionate share of their incomes for inadequate living accommodation, be it

Resolved that this Legislative Assembly request the government to give consideration to the erection of housekeeping units suitable for aged couples and single persons, to be rented at rates commensurate with the income of pensioners.

To which the following amendment has been proposed:

Moved by Dr. Ross, seconded by Mr. Dixon:

That all the words after the word, "Whereas", be struck out and the following substituted:

"the rising costs of living are making it increasingly difficult for our citizens who are wholly dependent on Federal-Provincial pensions and assistance.

Therefore be it resolved that this Assembly request the Government to give consideration during the present year to the whole field of Public Welfare with a view to proposing to the next session of this Legislature such improvements in Provincial assistance as may be considered necessary and desirable."

The Hon. Mr. Manning made the following statement with respect to the motion:

The Government concurs in the motion as amended and it is the government's intention to carry out the study proposed.

Moved by Mr. J. H. McLaughlin, seconded by Mr. Whitson:

Whereas the ever increasing costs involved in school construction are largely beyond the control of local school boards

And whereas the provisions of the Architect's Act requiring the services of a registered architect for all schools of three rooms or more, or having an auditorium or gymnasium add a cost factor which might be reduced or eliminated

Therefore be it resolved that the Government of Alberta give consideration to making available to school boards a number of approved and standard plans for school buildings.

And further that the Government give serious consideration to the introduction of legislation which will enable school boards to adopt a standard plan approved by the Department of Education with or without the services of a registered architect.

The Hon. Mr. Manning made the following statement with respect to the motion:

The Government concurs with this resolution.

Moved by Mr. MacEwan, seconded by Mr. Hall:

Whereas the study of Northern Development mentioned in the Speech from the Throne should not be delayed, and

Whereas a statement from the Government indicated that specific plans have not been made and may not be made during the present session of the Legislature

Be it resolved that this Legislature urge the Government to consider the immediate appointment of a commission or committee to conduct appropriate investigations and report to the Legislature in 1958.

The Hon. Mr. Manning made the following statement with respect to the motion:

The Government already has announced its intention to set up a Northern Development Commission and will carry out its commitment as quickly as it is feasible.

Moved by Mr. Macyk, seconded by Mr. Whitson:

Be it resolved that the Government of Alberta give consideration to extending the powers and responsibilities of the Right of Entry Arbitration Board to enable it to deal with problems arising out of the compensation of the owners of land which is crossed by pipelines and power lines.

The Hon. Mr. Manning made the following statement with respect to the motion:

The Government does not believe that it would be in the public interest to substitute the Right of Entry Arbitration Board for the present procedure of referring disputed cases to a Board of Arbitration set up to consider that particular case.

The Order of the Day being read for the continued debate on the following motion:

Moved by Mr. Kovach, seconded by Mr. Hillman:

Whereas millions of tons of steam and domestic coal are imported into Canada every year,

And whereas the coal industry in Canada is not getting a fair share of the Canadian market, resulting in serious unemployment for qualified coal miners.

Therefore be it resolved that this Legislature urge the Federal Government to take immediate action to assure a larger share of the Canadian market to Canadian producers in order to maintain a higher level of employment for Canadian coal miners.

To which the following amendment has been proposed:

Moved by Mr. Prowse, seconded by Mr. MacDonald:

That the motion be amended by deleting all words after the word "year", where it appears after the first "Whereas", and by substituting therefore the following:

"Therefore be it resolved that this Legislature recommend to the Government of this Province that they institute and adequately support a research program to discover and encourage economic use of our coal resources."

The Hon. Mr. Manning made the following statement with respect to the motion:
